#### Tom Topor

Dr. Ghaly, I just got home and I am feeling great. You have thought of everything and worked so skillfully and took the pain away; now I'll just have to wait for God to do His healing. I think it is a true miracle that I found you. I was looking for a second opinion but found so much more than that. I found a man of God that is an example of what a doctor should be and what a true Christian ought to be. For this I am forever grateful. As my name indicates, I had my doubts but you showed me and now I know I suffered needlessly. Thank you for not giving up on me. God bless you and your works.

#### **Judy Sargent**

God Bless You Cheri on your decision. Dr Ghaly is the most dedicated, caring neurosurgeon you will EVER have. He pushes you to do your best and doesn't make you do anything that isn't good for you! My C2-C7 Laminectomy and fusion was done on 7-5-19 and I can't believe my arms and hands how much better they feel. I was treated for tendinitis for years, the fine motor in my right hand was so bad couldn't put earrings in, tweeze my eyebrows or even apply makeup. My handwriting became chicken scratch (lol) but now I can hold a pen and write legibly again! My arm strength is back, I couldn't even hold a hair dryer or straightener up, I would tire so easy! You know I will be praying for your surgery and outcome also! We serve a mighty GOD and prayer is what got me through this beside Blessing Dr Ghaly with his expertise, knowledge and love of his patients. I will be having my thoracic and lumbar laminectomy and fusion I'm praying for the beginning of Oct if Dr Ghaly gives the thumbs up!! I'll have my prayer chain and PARKVIEW church FRIENDS to continue prayers for me and you are now included missy! Love you, trust you are in great care with GOD and Dr Ghaly 🙏👏👏👍👏

{{["Mr./Dr./Ramsis Ghaly...,  ...I wish to thank you for all of your sharing via (and otherwise) Facebook good sir. I was a student under Frank Glowaty- who as you well know had you (to) treat his wife. And although I never met her Ramsis, I am still friends with Mr. Glowaty. He was mine and my sibling's principal for 8 years. I will say simply that I admire your work, and I have recommended one patient to you...a relative of mine. My heart is to preach the Gospel of Our Good Lord and Savior Jesus Christ to your home nation of Egypt. And (as of my 51st. birthday/today sir,) I expect to get there. Please continue edifying; ulifting, encouraging, and REPROVING: especially those who need to be determined in their hearts and lives that the devil wages war relentlessly against God Our Loving Heavenly Father's Family and the Children-adopted; as the result of Jesus' death; burial, and resurrection sir." Love, Scott Allen Hoffmann

**Kenneth Primm**

I'm sharing a dear friend's post. I first met Dr. Ramsis Ghaly in 1991 at Cook County Hospital while I was doing my Residency in Chicago. In the midst of all that we went through then-he was always...different. He was gentle, he was kind...he was "settled". He came from Egypt. When I met him he was already a Board Certified Anesthesiologist - WHILE completing several years of training to become a Neurosurgeon. He is now Boarded in five medical specialties and practices them all in the Chicago area.

I used to love to say to him forcefully "Ramsis!!!" as his name is that of Pharaohs. It tickled me he had such a great name. I know he now weeps for his Christian brethren in Egypt who are suffering escalating persecution. Yet he's always calm, always settled, always kind. I've always wondered just what...what it is...that makes him tick. What all it is that develops and ends up with the heart that he has. He wrote this post - and it becomes more clear. Life is short, you can't change the world...spend energy on things under your control and positive things you can do with God's grace, don't get distracted. Dr. Ghaly has authored I believe it is thirteen books. But this post speaks volumes to me and is a wonderful example to me also.

**Barbara Klermund**

**Patients quotes 13****Christina Rutkowski**

He is so gifted, compassionate, extremely smart, and passionate about helping his patients. He's got magical hands as a surgeon, and has saved many lives. He is the kind of person that leaves forever traces of grattitude in the hearts of his patients and students. He is giving me back my quality of life and I will always appreciate his efforts to keep me feeling good. His name is Dr. Ramsis Ghaly and he is the best neurosurgeon ever!! Thank you so much for your time! My family and I wish you a very HAPPY NATIONAL DOCTOR'S DAY!! God bless you always.

**Jennifer Petrucci**

Dr Ghaly you are unforgettable!! We tell everyone in pain and suffering about you and hand out your

### **Elizabeth Villagomez**

My Doctor Ramsis Ghaly is an Angel. Went to see him at the last minute Friday after a week of this pain. He prescribed me new meds and I'm thinking that they are finally starting to work. He called me yesterday and was scare that I was going to get dehydrated due to not drinking or eating and suggested I go to the ER and get admitted.

But this morning I woke up, brushed my teeth as usual and didn't have as much pain as I usually do. I even made a cup of coffee and was able to drink it without choking on it from the electrocuting/stabbing pain.

Had a piece of bread and was able to slowly chew it with some pain but managed to finally swallow it. (Progress)

I wish this would all go away, but I know it's part of God's plan that he has for me. It's part of my story. I don't question it but I do pray on it.

Today is a new day and with that comes new obstacles and hope. I know I will over come this. When the time is right I will be back to my normal, pain free life. But for now I am going to enjoy everyday as much as I can and not give up. ❤️☐🙏🙏

### **Gregor Retinger**

Ramsis , i would like to thank you for the hard work and dedication that accompanies your work. Both knowledge and experience acquired over time have a huge impact on professionalism, but it seems no less important to have and nurture certain personality traits that give your work a vocational dimension. Today, medicine sets the next steps forward, we are witnessing extremely dynamic development in the field of diagnostics and the treatment itself, but even the best equipment can not replace a doctor. Thanks to you, Ramsis, we can learn sensitivity and mutual concern for the good of others. I wish you to be able to serve those who need your help so much. Let this effort be noticed and appreciated by all. Let the recognition and gratitude of patients be the most objective assessment of your work...

Just to add to your story Leslie. First I am so sorry to hear about your mother's story. I want the best for all. I followed my gut and the first Neurosugeron made me very uncomfortable and I couldn't let him operate on me. My husband researched and found the best Neurosugeron ever, Dr Ghaly. This is so true. We visited him and I've never felt more like a human vs a number. I know a few people who suffered. Please do your research everyone before having surgery. Leslie I wish you had a better turnout.

Dr Ghaly is gifted but he put God first. He's passionate about his work and he cares for his patients. There aren't enough words to say how special and an honor to have you as our doctor. This doctor help save lives under the worse situations. Thank you Dr Ghaly and you are honored today.
